

Life's Challenges in Secondary School – Part 2

Facilitator – Dwayne Peace
(3 hours) – Grade 8-12

If you have booked the "Life's Challenges in Secondary School" session for your students in the morning then this will complete a full day with Dare to Care. The morning session is often done as an assembly with either the entire school or with a different grade level each day.

Part 2 takes the morning session to a deeper level allowing all participants in the room to experience what it is like to be in a room of peers and not to feel anything but equal with everyone in the room. If you choose Part 2 then Dwayne will discuss how to select the group of 25 students that will participate in this workshop with one or two staff members.

This session will motivate the participants to "Take the TIME" to make a difference in their lives and those around them.
